

Electrolysis share, 2050:
Base: 54% in every run
Medium: 25% in every run

No change in hydrogen, gas or CO_2:
a subsidy moves money; the low
CAPEX path only lowers the cost.

Value of 1 kW more electrolyser
in Medium (€/kW of H_2, present value):
central 1,031
subsidy 20% 1,205
subsidy 40% 1,379
low CAPEX 1,618

central subsidy 20% subsidy 40% low electrolyser CAPEX
